

Mystery Hill

June 1956

We're nearly there! I've buried the key which you will need to open the treasure chest. You'll need to dig it up.

Continue on this path up and around until you re-enter Scottie's field. Go up the hill to the gate and then look in the forest for a place to dig. I've already told you where to look! But you may have missed it.

To get into the box, you'll need to work out the combination.

Add up the days in a week,
And times by a Birthday Girls age,
Wait around for one whole year,
Adding one to the count each day.

Take off a dozen,
Shout out the answer,
We'll open the padlock,
And have a quick dancer!

p.s. I'm actually a published poet. Did you know?!
